Forecast for Saturday 28 Aug 2021

Weather: Some mist and fog patches may develop on windward slopes in the early hours, but this should lift quickly during the morning. A dry day will follow with plenty of sunny spells and some fair weather cloud. Skies will clear in the evening.

Chance of cloud free mountain/hill tops above 600m: 60% in the early hours, but improving to 100% during the morning.

Visibility: Poor in any early morning mist and fog areas. Otherwise very good visibility of distant hills throughout the day with most cloud staying above the summits.

Meteorologist's View

Although it is towards the end of summer, UV levels will still be high in the prolonged sunny intervals, particularly as you climb further up. Therefore, it is still important to protect exposed areas of skin and stay hydrated.
